

Amendments to the Claims:

1. **(Original)** A surface acoustic wave (SAW) filter comprising:
a first SAW resonator;
a second SAW resonator connected in series to the first SAW resonator at a first node;
a third SAW resonator connected in series to the second SAW resonator at a second node;
a fourth SAW resonator connected in series to the third SAW resonator at a third node;
a fifth SAW resonator connected between the first node and a ground;
a sixth SAW resonator connected between the third node and a ground; and
a first capacitance element having a capacitance and connected between the second node and a ground.
2. **(Original)** The SAW filter of claim 1 further comprising a second capacitance element having a capacitance and connected between the first node and a ground.
3. **(Original)** The SAW filter of claim 2 further comprising: a third capacitance element having a capacitance and connected between the third node and a ground.
4. **(Original)** The SAW filter of claim 1 further comprising a piezoelectric board having the first to sixth SAW resonators provided thereon, wherein the first capacitance element including
a first electrode extending from the second node and provided on the piezoelectric board, and
a second electrode extending from the ground and provided on the piezoelectric board, the second electrode facing the first electrode.
5. **(Original)** The SAW filter of claim 4, wherein the first electrode and the second electrode have toothed portions facing each other, respectively.

6. **(Original)** The SAW filter of claim 5, wherein the first electrode and the second electrode comprise interdigital electrodes.

7. **(Currently amended)** A device comprising:
said SAW filter of ~~any one of claims 1 to 6~~ claim 1; and
an element connected to the SAW filter.

8. **(New)** A device comprising:
said SAW filter of claim 2; and
an element connected to the SAW filter.

9. **(New)** A device comprising:
said SAW filter of claim 3; and
an element connected to the SAW filter.

10. **(New)** A device comprising:
said SAW filter of claim 4; and
an element connected to the SAW filter.

11. **(New)** A device comprising:
said SAW filter of claim 5; and
an element connected to the SAW filter.

12. **(New)** A device comprising:
said SAW filter of claim 6; and
an element connected to the SAW filter.
